

PROBLEM SOLVER-GRAPHICS DESIGNING TRAINEE

Samuel Girma

OBJECTIVE

As a driven computer science student, I am eager to enhance my web development expertise by gaining practical graphic designing skills to deliver visually appealing and user friendly online experiences.

EXPERIENCE

Mini-projects in computer science department

- Developed a robust banking system application using c++ and java with my colleagues.
- Utilized object-oriented programming concepts, data structure, and algorithm

Self-directed web development learning and projects

september 2023 -present

- Completed a comprehensive series of youtube courses covering HTML, CSS and JavaScript fundamentals
- Applied newfound knowledge by building a variety of personal web projects, showcasing proficiency in modern front-end development.

PROJECTS

Apple website-(youtube course project)

- Designed and developed a responsive website for a fictional Apple product line using HTML, CSS and Javascript.
